### **NJAT Internet Use Policy**

We believe that the Internet offers vast, diverse, and unique resources to both students and teachers. Our goal in providing Internet access is to promote educational excellence by facilitating resource sharing, innovation, and communication.

The smooth operation of the network relies upon the proper conduct of the users, who must adhere to strict guidelines. These guidelines are provided here so that students are aware of their responsibilities. In general, this requires efficient, ethical, and legal utilization of the network resources.

Students will have access to the Internet/World Wide Web resources at school. Internet use is only allowed with permission of the supervising teacher, and e-mail access will be available only under a teacher's direct supervision. No individual student accounts will be offered. In addition, we will be taking digital images of students (with no names) engaged in classroom activities for display on our school web page.

Please sign and return the Internet Use Agreement Form (other side) and return it to your classroom teacher ASAP. We need a signed form on file for EVERY STUDENT.

If you have any questions or concerns, please feel free to contact NJAT (Tel: 201-627-8383) or admin@njat.us
